### **I. PRESENTATIONS:**

#### **A. PRESENTATION BY FIRE CHIEF WEBER**

Chief Weber gave a presentation regarding cost recovery for the Fire Department. He briefly explained the Cost Recovery Ordinance that the City has in place. At this time, structure fires are billed at a rate of \$500, which is sent directly to the insurance company. He stated that the costs being billed are not reflective of what it is actually costing the Fire Department. He reviewed in detail the various types of medical calls and how they are dispatched, either by the alarm company to Central Dispatch or by the patient/residence directly. He stated that alarm companies do not always have the needed patient information. Chief Weber gave an example of one hundred and eighty-five medical calls (City & Township combined) that would fall in the proposed billable category that amounted to approximately \$62,000 – the Fire Department’s actual cost. He briefly discussed police alarms. A lengthy discussion took place regarding the billing “under certain circumstances” and using “may” instead of “shall” in the proposed language. Chief Weber explained that he has researched many different cost recovery ordinances and will forward these examples to Manager Mitchell. He explained that some municipalities have a permit process for business. Chief Weber answered questions of the Commission and Township Supervisor Winn.
