## INDEPENDENT AUDITOR'S REPORT

City Commission  
City of Otsego, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Otsego, Michigan, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, as listed in the contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Otsego, Michigan, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Change in Accounting Principle**

As discussed in Note 15 to the basic financial statements, the City adopted GASB Statement No. 84 *Fiduciary Activities* in fiscal year 2020, which represents a change in its policy for reporting fiduciary activities. Our opinions are not modified with respect to this matter.

### **Other Matters**

#### *Required supplementary information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Supplementary information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Otsego, Michigan's basic financial statements. The combining nonmajor fund, individual fund, and component unit financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund, individual fund, and component unit financial statements and schedules (supplementary information) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

*Sigfried Crandall P.C.*

October 9, 2020

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

# **City of Otsego, Michigan**

## **Management's Discussion and Analysis**

The following discussion and analysis is intended as a narrative overview of the City of Otsego, Michigan's (the City) operations over the fiscal year and its financial condition on June 30, 2020. Please read it in conjunction with the City's financial statements.

### **Financial Highlights**

- The City's total net position increased by \$518,208, or 3 percent, as a result of this year's operations. The net position of the governmental activities increased by \$509,052 and the net position of the business-type activities increased by \$9,156.
- Of the \$16,202,376 total net position reported, \$4,334,568 is available to be used to meet future operating and capital improvement needs, without constraints established by debt covenants, enabling legislation, or other legal requirements.
- The General Fund's unassigned fund balance at the end of the fiscal year was \$941,524, which represents 46 percent of the actual total General Fund expenditures and transfers out for the fiscal year.

### **Overview of the financial statements**

This discussion and analysis introduces the City's basic financial statements, that follow this section, and includes a comparative analysis of the basic financial statements using summarized information from the current and prior year's government-wide financial statements.

The City's annual report is comprised of three components: government-wide financial statements, fund financial statements, and notes to the financial statements. Additional supplementary information is also included to provide a more detailed view of the City's financial structure and to support the information provided in the basic financial statements.

### **Government-wide financial statements**

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a format similar to that of private-sector financial statements. The Statement of Net Position and the Statement of Activities are designed to be corporate-like, in that all the governmental and business-type activities are consolidated into columns that add to a total for the primary government. These statements should help the reader to answer the question: Is the City, as a whole, in a better or worse financial position as a result of this year's activities? These statements include all nonfiduciary assets and liabilities using the accrual basis of accounting. The current year's revenues and expenses are recognized, regardless of when cash is received or paid.

The Statement of Net Position reports all of the City's assets and liabilities, along with the difference between the two, which is identified as the net position. This statement combines and consolidates short-term spendable resources (e.g., cash, receivables, inventory, etc.) with capital assets. Increases and decreases in net position may serve as an indicator, over time, as to whether the City's financial position is improving or deteriorating. However, other factors must also be considered when evaluating the overall financial position, such as the status of the City's infrastructure and property tax base.

The Statement of Activities reports both the gross and net cost of the various programs and activities of the City that are funded by property taxes and other revenue sources. This presentation is intended to summarize the cost of providing the various governmental services. This Statement also shows the change in the City's net position over the fiscal year. All changes in net position are reported when the underlying events occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements report three types of activities:

1. *Governmental activities.* These activities include functions most commonly associated with government (e.g., police, fire, public works, parks, etc.). Property taxes and intergovernmental revenues usually fund these services.
2. *Business-type activities.* These activities provide services that are supported by customer user fees. The user fees are calculated to provide all, or the majority, of the operating costs involved in providing the services. The City operates two business-type activities that reflect the private-sector type operations: water and sewer services. The City operates a third activity, referred to as the Capital Project Fund, which is classified as a business-type activity because it currently involves commercial and residential plat development, the cost of which is recovered through the sale of lots.
3. *Discretely presented component unit.* Component units are legally separate organizations over which the City (the City Commission) can exercise influence and for which the City is financially accountable. The City has one component unit, the City of Otsego Downtown Development Authority/Main Street (DDA). The financial statements are primarily focused on the City. The component unit information, however, is presented to show its activity and relative financial relationship to the primary government.

### **Fund financial statements**

Fund financial statements are presented in a manner similar to the reporting format of prior years. These statements detail the activity that has occurred in the City's most significant funds. Individual funds, or fund accounting, are necessary to track revenues and expenditures that are directly related to specific activities or required by statute/ordinance to be budgeted and accounted for separately. To be reported separately and considered as a major fund, however, a fund's total assets, liabilities, revenues, or expenditures must be at least 10 percent of the total assets, liabilities, revenues, or expenditures for all funds of that category or type.

The City's funds are classified into three categories, which each use a different accounting approach:

1. *Governmental funds.* These funds account for essentially the same functions reported as governmental activities in the government-wide financial statements mentioned above. The governmental funds statements, however, are presented on a modified accrual basis, which focuses on the short-term (60 day) sources and uses of available resources, as well as the balance of spendable resources at the end of the fiscal year. A review of these statements can show if there has been an increase or decrease in the resources available to continue providing services to our residents. The relationship between governmental activities reported in the Statement of Net Position, Statement of Activities, and the governmental funds statements is reconciled in the financial statements. The City's governmental funds include the General Fund, special revenue funds, and capital projects funds.
2. *Proprietary funds.* Proprietary funds account for the expenses involved in providing particular services to customers who are then charged fees calculated to recover the costs of operation. These funds use accrual accounting, which is the same method used by private-sector businesses. The City maintains two different types of proprietary funds: enterprise and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, and land development services. Internal service funds are used to accumulate and allocate costs internally across various City functions. The DPW Motor Pool Fund serves as an internal service fund to provide contractor equipment used in the other funds. Because the equipment is rented by the hour to provide services, which predominately benefit governmental rather than business-type functions, it is included within governmental activities of the government-wide financial statements.
3. *Fiduciary funds.* These funds are used to account for the collection and disbursement of resources, primarily property taxes, for the benefit of parties outside the City. The City is responsible for ensuring that the assets reported in the fiduciary funds are used for their intended purposes. The City's fiduciary balances and activities are reported in the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

## **Notes to the basic financial statements**

The notes provide additional information that is necessary to understand the data reported in the government-wide and fund financial statements.

### **Required supplementary information**

Following the basic financial statements is additional required supplementary information that further explains and supports the information in the financial statements. The required supplementary information includes budgetary comparison schedules.

### **Supplementary information**

Following the required supplementary information are combining financial statements for nonmajor governmental funds. These funds are added together and presented in a single column in the basic financial statements but are not reported individually, as with major funds, on the governmental funds financial statements. This section also includes governmental funds balance sheets, budgetary comparison schedules for each of the City's funds, and financial statements for the component unit.

### **Financial analysis of the City as a whole**

#### *Statement of Net Position*

As noted earlier, net position may serve, over time, as a useful indicator of a government's financial position. The Statement of Net Position reveals favorable or positive balances in all three of the government-wide columns (governmental activities, business-type activities, and totals), as well as the component unit column. A negative balance would indicate a deficit situation that would require further disclosure of plans to reverse the balance in the subsequent fiscal year.

A two-year comparison of the Statement of Net Position is shown in Schedule 1. In the City's case, total assets exceeded total liabilities at the end of the fiscal year by \$16,202,376. However, the majority of the City's net position, in the amount of \$10,997,382, (68 percent) represents an investment in capital assets (e.g., land, streets, storm sewers, water and sewer systems, buildings, and equipment), less outstanding debt used to acquire or construct these assets. Because the City uses these capital assets to provide essential services to citizens, these assets are not available to be liquidated for future spending needs. Although the City's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay the debt must be provided from other sources because the capital assets themselves cannot be used to satisfy these liabilities.

A total of \$870,703 of the City's net position is restricted for public safety (\$3,578) and public works (\$867,125). The City may use the remaining balance of unrestricted net position of \$4,334,291 to meet its ongoing obligations to citizens and creditors. The unrestricted net position for the governmental activities increased by 24 percent for the fiscal year, and the unrestricted net position for the business-type activities increased by 6 percent.

The unrestricted net position for governmental activities increased by \$419,204, primarily due to receiving State Local Community Stabilization Authority (LCSA) funding of \$387,623. The current level of unrestricted net position for governmental activities represents 69 percent of the fiscal year's expenses.

The unrestricted net position of the business-type activities increased by \$127,662 during the year, primarily due to a reduction in capital improvement projects. The ending unrestricted balance of \$2,131,875 represents 156 percent of the actual business-type expenses for the fiscal year. Although the unrestricted net position is not necessarily cash and cash equivalents, this balance could be depleted by one or more significant capital improvement projects.

**Schedule 1**

**Statement of Net Position - Two Year Comparison**

*Statement of Activities*

A similar two-year comparison of the Statement of Activities is shown in Schedule 2. This schedule identifies many of the substantial changes that occurred in revenues and expenses over the fiscal year.

The increase in net position was higher than the prior year, as revenues increased by \$350,843, while expenses only increased by \$274,144.

Governmental activities increased the City's net position by \$509,052 due to receiving increased LCSA funding and a \$249,728 transfer to the General Fund formally closing out the Land Development Fund upon completion of the residential plat.

Business-type activities increased the City's net position by \$9,156. The increase in net position was \$239,760 less than the prior year, primarily due to the \$249,728 transfer to the General Fund, as mentioned above.

## **Financial analysis of the City's funds**

The last section of the financial report, entitled Supplementary Information, includes balance sheets and statements of revenues, expenditures, and changes in fund balances in more detail for each of the City's funds. The latter statements also include the final amended budgets, as adopted and approved for each fund. These reports will likely be more familiar to City commissioners and staff, as they are more closely formatted in a manner similar to the monthly financial reports.

### *General Fund*

The General Fund is the primary operating fund of the City. At the end of the fiscal year, total fund balance increased by \$185,484 to \$955,497. The ending fund balance represents 47 percent of current year expenditures and transfers out.

The City amended its expenditure budget, increasing appropriations by \$48,700. Total expenditures were \$97,555 less than the final amounts appropriated. The most significant expenditure variance occurred in the general government function where expenditures were \$45,760 (8 percent) less than appropriated. No single item accounts for the variance, however, the City's share of cemetery expenses was \$17,908 less than projected. In addition, the annual partial reappraisal of residential properties (\$9,817) was postponed due to the Covid-19 pandemic and the anticipated alley repairs due to an underground electrical repair were \$10,126 less than anticipated.

The General Fund subsidized the Public Safety Fund through a transfer out of \$919,670 which represents 43 percent of total General Fund expenditures.

### *Major Street Fund*

The City receives revenues from the State of Michigan to maintain 8.71 miles of major streets, as defined by Public Act 51 of 1951. Also included in this fund are operating costs to maintain the M-89 State Highway, according to contract. This year's revenues were higher than expenditures by \$190,339. Fund balance at the end of the fiscal year grew to \$621,483, which represents 312 percent of the current year's public works expenditures. Fund balance is accumulated to help offset future capital improvement projects.

### *Local Street Fund*

The City receives revenues from the State of Michigan to maintain 12.64 miles of local streets, as defined by Public Act 51 of 1951. Subsidies are regularly transferred from the Major Street Fund and/or the Street and Bridge Fund to accumulate sufficient resources to cover anticipated street maintenance and capital improvement costs. Revenues and other sources (transfers in of \$60,000), were less than expenditures of \$483,512. Fund balance decreased by \$211,101 to \$38,891 at year end. Fund balance is accumulated to help offset future capital improvement projects or revenue shortfalls resulting from subsidies being temporarily redirected to other projects.

### *Public Safety Fund*

Normal operating costs were \$1,250,083 while transfers out to capital project funds were \$78,550, bringing the total of expenditures plus other uses to \$1,328,633. Tax revenue generated \$174,505, or 13 percent of total uses of funds. The \$919,670 transfer in, from the General Fund, provided 69 percent of the total uses of funds. The fund ended the year with a fund balance of \$239,726 which represents 19 percent of operating costs.

### *Street and Bridge Fund*

Allegan County voters approved a road maintenance millage to be collected as part of property taxes to help maintain and improve roads within the County. Because the County does not maintain any roads within the City, the County provides a portion of these monies to the City for capital improvement projects or road maintenance, in accordance with Michigan Compiled Laws 224.20b. Revenues exceeded expenditures and transfers to the street funds (\$60,000), which caused fund balance to increase by \$71,245. The restricted fund balance amounts to \$206,751.

### *Solid Waste & Recycling Fund*

This new governmental fund was created to separate out the City's transfer station and recycling functions from the General Fund. Appropriations are funded by a solid waste reduction millage, as allowed by Michigan Compiled Law 123.261 and the Allegan County Recycle Surcharge Program. Normal operating costs were \$233,687; however, revenues and transfers in amounted to \$230,127, which resulted in a deficit of \$3,560. This year, expenditures were higher than original projections for curbside recycling and removal of collected recyclables and trash due to unfavorable market conditions.

#### *Governmental Capital Projects Fund*

This is a capital project fund used for future improvements to existing City facilities. Transfers in from the General Fund and Public Safety Fund totaled \$134,215, based on projected depreciation of applicable capital assets. Revenues amounted to \$9,340 and capital acquisition expenditures, totaled \$26,838. This resulted in a year end fund balance of \$169,414.

#### *Equipment Replacement Fund*

This is a capital project fund created to accumulate resources over time in order to purchase vehicles and equipment exceeding the \$5,000 capitalization threshold. This fund had a total of \$76,280 transferred in from the General and Public Safety funds, based on estimated annual depreciation of capital assets purchased by these funds. The transfer in, plus interest revenue of \$980, less capital outlay expenditures of \$45,112 resulted in an ending fund balance of \$120,305.

#### *Special Assessment Capital Project Fund*

The fund generated revenues of \$16,752 and incurred no expenditures which caused fund balance to increase by \$16,752. Fund balance available for future capital improvement projects totals \$360,585.

#### *Sewer Fund*

Although overall system usage was down, charges for services were \$11,095 more than the prior year, primarily due to overall rate increases of 7.2 percent. Operating expenses increased by \$3,591 due to increased chemical use and sewer main maintenance. Operating income amounted to \$150,951, and together with net nonoperating expenses of \$27,146, increased net position by \$123,805 for the fiscal year. Total net position was \$4,698,726 at year end, of which \$947,345 was unrestricted. Unrestricted net position represents 113 percent of operating expenses and is accumulated to offset future capital improvement or maintenance projects. The balance of long-term debt amounts to \$1,219,999 at year-end. User fees have been increased significantly to provide debt repayment funding while still supporting operating costs.

#### *Water Fund*

Charges for services were \$16,198 less than the prior year, primarily due to a nearly 10 percent reduction in use. Operating expenses increased by \$53,760 primarily due to replacement of known lead services. Operating income amounted to \$124,932 and, together with interest income, increased net position by \$135,079 for the fiscal year. Total net position was \$2,663,199 at year end, of which \$1,184,530 was unrestricted. Unrestricted net position represents 237 percent of operating expenses and is accumulated to offset future capital improvement or maintenance projects.

#### *Proprietary Capital Projects Fund*

This fund has served as a proprietary fund involved with the development of residential plats and commercial parcels with M-89 frontage. The fund transferred \$249,728 to the General Fund because the remaining equity was comprised predominantly of General Fund transfers in and gains resulting from the sale of developed lots. The fund was closed at the end of the year.

#### *Motor Pool Fund*

This fund is a proprietary fund used to allocate the costs of public works equipment and supplies to the City's operating departments and component unit. Equipment is charged to departments using rental rates derived by the State. Supplies are charged at actual costs. The fund's net position decreased by \$5,270 in the current year, as operating expenses exceeded interfund charges by \$13,407 and the fund recognized nonoperating revenue of \$8,137. Net position is comprised of an investment in capital assets of \$431,071, and unrestricted net position of \$359,886, totaling \$790,957 at year end. The unrestricted net position is accumulated to offset future capital asset purchases.

## **Capital assets and debt administration**

### **Capital assets**

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2020, amounts to \$12,217,381 (net of accumulated depreciation). This investment includes a broad range of assets. Overall, there was a \$129,599 decrease in the City's net investment in capital assets in the current fiscal year, comprised of \$682,017 in additions, \$767,415 in current depreciation, and \$44,201 in losses on dispositions.

Capital acquisitions during the year included:

- \$246,829 in street resurfacing projects
- \$44,557 of wastewater system improvements
- \$84,440 of water system improvements
- \$49,628 in new Motor Pool Equipment

Additional information regarding the City's capital assets is presented in Note 5 of the notes to the basic financial statements.

### **Long-term debt**

At the end of the fiscal year, the City had total long-term debt outstanding of \$1,219,999, reflecting a decrease of \$55,000 related to a timely principal payment. The debt was issued to make sewer system improvements. The City received an A2 rating from Moody's Investors Services in August of 2017. State statutes limit the amount of general obligation debt the City can issue to 10 percent of its total state equalized assessed value of property, which is equal to \$12,015,290 based upon 2020 property value assessments.

Other long-term debt obligations, totaling \$41,550, represent accrued compensated absences. Additional information is presented in Note 6 of the notes to the basic financial statements.

### **Economic factors and the 2020-21 budget and rates**

Like most communities, the City of Otsego will not be immune to the effects of the Covid-19 Pandemic. With the shut-down of a major portion of the economy, the City will likely receive lower state shared revenues, which are comprised of sales and use taxes. Forecasting the anticipated reductions in state shared revenues is difficult, as there is no history of a similar event in recent times, or how long it will take for the economy to return to pre-pandemic levels. Anticipated reduction in forecasts of state shared revenues were 10 to over 20 percent and the City budgeted an approximate 13 percent reduction in General Fund state shared revenues. Act 51 revenue received in the Major and Local street funds, however, budgeted a 15 percent increase in Act 51 revenue based upon projections provided by the Michigan Department of Transportation early in the spring. With the closure of the economy, fuel sales and related transportation use taxes were reduced, so we anticipate reductions in the Act 51 revenues to both street funds.

The City's General Fund projected a 4 percent increase over the prior year, even with the significant state shared revenue reductions. Property tax revenues are projected to be 2.5 percent higher and Local Community Stabilization Authority (LCSA) funding is projected to be over 92 percent higher than the previous year's budget. The Local Community Stabilization Authority (LCSA) funding in the General Fund increased approximately \$150,123 to \$355,398. Pursuant to the personal property tax reforms and reductions that were enacted in 2014, small business and eligible manufacturing personal property is being phased out of the property tax process. The State established the LCSA as a separate legal entity to generate revenue on a different basis, outside of the State budgetary process, and return it to local communities according to the new program. This revenue source remains elusive to forecast, therefore, the City budgeted \$240,655 as a conservative estimate for this fiscal year.

Total General Fund appropriations increased 7 percent, resulting in a projected decrease in fund balance of \$249,295. This represents a continued return to the previous trend of using accumulated fund balance to cover revenue shortfalls. While this trend is not sustainable, the City continues to remain hopeful that accurate forecasting becomes available for the LCSA funding which includes anticipated growth in that funding source.

Although the street funds may realize less Act 51 revenues than projected, the Major Street Fund appropriated \$315,000 for capital improvement projects. Street maintenance is a continued priority and has resulted in a street system that is in very good condition overall.

This year the City's recycling and transfer station's appropriations were moved out of the General Fund and into a newly created Solid Waste and Recycling Fund. As mentioned in the financial analysis, this fund experienced a deficit as of June 30, 2020. During the budgeting process, the City anticipated that costs to provide these services were increasing significantly and there was concern of revenues meeting expenditures. Therefore, the City levied additional solid waste reduction millage to provide additional tax dollars and increase the fund balance during the 2020-2021 fiscal year.

To bolster tax base, the City continues to pursue capital investment in the community. Current construction projects in the City include the new FEMA industrial site, which represents a 3.4 million dollar investment, and a 6 million dollar paper storage building at the local USG plant. To further encourage capital investment in the community, the City continues to work closely with Allegan County to find a developer for the old Rock-Tenn Paper Mill. Over the past year, the County used federal funds to abate the asbestos and raise the former powerhouse at the mill. Allegan County continues to work with the City to secure a developer to raze the remaining structures and develop the site for residential or mixed use. The City owns additional vacant property adjacent to the area which may also become part of a future development.

The help keep a vibrant downtown and increase possible interest in riverfront development, the City of Otsego Downtown Development Authority/Main Street is currently constructing a new community riverfront pavilion. The \$300,000 project will be located along the City's Riverfront Trail and will be used for community events and a covered farmers' market. The City received \$50,000 in matching MEDC funds for community donations and completed designs in the previous year.

The City's Water and Sewer funds continue to be financially sound. Although the utilities have excess capacity, due to reductions of industrial use, and the respective departments have attempted to maintain aging equipment within reduced operating budgets, the City continues a proactive campaign to update infrastructure. In addition, the State of Michigan's lead and copper rules require an inventory of possible lead services and a schedule to replace those services. The City is attempting to abate 20 percent of the lead services annually, at an average cost of \$5,000 each, and is appropriating \$50,000 annually for this program. Confirmation and replacement will be more expensive to do individually, however, possible future street projects may assist in this effort at a lower cost. Historically, these funds have recovered depreciation, which has left both in reasonably strong positions to maintain infrastructure and occasionally fund improvements to their respective systems.

#### **Contacting the City's financial management**

This financial report is designed to provide a general overview of the City's finances to its citizens, customers, investors, and creditors and to demonstrate the City's accountability for the resources it receives. Questions regarding any information provided in this report or requests for additional financial information should be addressed to:

Matthew Storbeck, Finance Director  
City of Otsego

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the City of Otsego, Michigan (the City), conform to accounting principles generally accepted in the United States of America (hereinafter referred to as generally accepted accounting principles) as applicable to governmental units. The following is a summary of the more significant accounting policies.

*Reporting entity:*

The City is governed by an elected five-member Commission. As required by generally accepted accounting principles, these financial statements present the City (the primary government), located in Allegan County, and the component unit described below, for which the City is financially accountable. The component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the primary government.

*Otsego Downtown Development Authority:*

The Authority was established pursuant to Public Act 197 of 1975, as amended, to correct and prevent deterioration and promote economic growth within the downtown district. The Authority is fiscally dependent on the City because the City Commission appoints the Authority's governing body and approves its budget. The City is also obligated to provide some of its tax revenues to the Authority through tax increment financing, which represents a financial burden on the City. Fiscal dependence and the financial burden relationship make the City financially accountable for the Authority and require the City to report it in its financial statements. Separate financial statements for the component unit have not been issued as management believes that these financial statements, including disclosures, contain complete information to constitute a fair presentation of the component unit.

*Government-wide and fund financial statements:*

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. The effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and the fiduciary fund, even though the latter is excluded from government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

*Measurement focus, basis of accounting, and financial statement presentation:*

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Measurement focus, basis of accounting, and financial statement presentation (continued):*

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period, or soon enough thereafter, to pay liabilities of the current period. For this purpose, the City generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenues of the current period. All other revenue items are considered to be measurable only when cash is received by the City.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Major Street Fund, a special revenue fund, accounts for state gas and weight tax revenues that are restricted for expenditures related to maintaining and improving the City's major streets.

The Local Street Fund, a special revenue fund, accounts for state gas and weight tax revenues that are restricted for expenditures related to maintaining and improving the City's local streets.

The Public Safety Fund, a special revenue fund, accounts for operational revenues and expenditures for the public safety activities of the City; the majority of the revenues are derived from property taxes and charges for service.

The City reports the following major proprietary funds:

The Sewer Fund accounts for the activities of the City's sewage system and treatment plant.

The Water Fund accounts for the activities of the City's water mains and pumping facilities.

Additionally, the City reports the following fund type:

The Internal Service Fund accounts for public works operations and capital asset rentals by various City departments.

The City also reports a fiduciary fund, the Tax Collection Fund, which accounts for assets held by the City in a fiduciary capacity for other governments.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Measurement focus, basis of accounting, and financial statement presentation (continued):*

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds relate to charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

*Assets, liabilities, deferred inflows of resources, and equity:*

*Cash and investments* - Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are reported at fair value. Pooled investment income is proportionately allocated to all funds.

*Receivables and payables* - In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances." No allowance for uncollectible accounts has been recorded, as the City considers all receivables to be fully collectible.

*Prepays* - Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaids in both government-wide and fund financial statements.

*Inventories* - The costs of inventories are recorded as assets when purchased and charged to expenses when used. Inventories, reported in the proprietary funds, are valued at the lower of cost or market. Cost is determined under the first-in, first-out method.

*Capital assets* - Capital assets, which include property, equipment, and infrastructure assets (e.g., streets, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the City as assets with an initial, individual cost of greater than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value as of the date received. Governments can elect to account for infrastructure assets either retroactively to June 15, 1980, or prospectively. The City has elected to account for infrastructure assets prospectively, beginning July 1, 2003.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	10 - 50 years
Furniture, fixtures, and equipment	3 - 20 years
Vehicles	3 - 20 years
Sewer and water systems	50 years

*Compensated absences (vacation and sick leave)* - It is the City's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. A liability for unpaid accumulated vacation has been recorded for the portion due to employees upon separation from service with the City. Vested compensated absences are accrued when earned in the government-wide and proprietary funds financial statements. A liability for these amounts is reported in the governmental funds only for employee terminations as of year end.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Assets, liabilities, deferred inflows of resources, and equity (continued):*

*Deferred inflows of resources* - The governmental funds balance sheet includes a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period. The related revenues will not be recognized until a future event occurs. The City has one item included in this category - special assessments. Special assessment revenues, which are not recognized until available (collected not later than 60 days after the end of the City's fiscal year) are deferred and recognized as an inflow of resources in the period that the assessments become available.

*Net position* - Net position represents the difference between assets and liabilities. The City reports three categories of net position, as follows: (1) *Net investment in capital assets* consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets; (2) *Restricted net position* is considered restricted if its use is constrained to a particular purpose. Restrictions are imposed by external organizations, such as federal or state laws or buyers of the City's debt. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets; (3) *Unrestricted net position* consists of all other net position that does not meet the definition of the above components and is available for general use by the City.

*Net position flow assumption* - Sometimes, the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary funds financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

*Fund equity* - In the fund financial statements, governmental funds report nonspendable fund balance for amounts that cannot be spent because they are not in spendable form. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws and regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City Commission. A formal resolution of the City Commission is required to establish, modify, or rescind a fund balance commitment. The City Commission retains the authority to assign fund balance. Unassigned fund balance is the residual classification for the amounts that do not fall into any of the above categories. When the City incurs an expenditure for purposes for which various fund balance classifications can be used, it is the City's policy to use restricted fund balance first, followed by committed fund balance, then assigned fund balance and, finally, unassigned fund balance.

*Property tax revenue recognition* - Property taxes are levied as of July 1 on property values assessed as of December 31 of the prior year. The billings are due on or before August 15, at which time the bill becomes delinquent and penalties and interest may be assessed by the City. Property tax revenue is recognized in the year for which taxes have been levied and become available. The City levy date is July 1, and, accordingly, the total levy is recognized as revenue in the current year.

*Use of estimates* - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Accordingly, actual results could differ from those estimates.

**NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

*Budgetary information* - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The budget document presents information by fund, function, department, and line-item. The legal level of budgetary control adopted by the governing body is the activity level. Amounts encumbered for purchase orders, contracts, etc., are tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered. The following schedule sets forth the reportable negative budget variances:

<u>Fund</u>	<u>Function</u>	<u>Activity</u>	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
Local Street	Capital outlay	Capital outlay	\$ 327,985	\$ 336,367	\$ 8,382
Public Safety	Public safety	Fire	360,430	363,795	3,365

*Fund deficit* - The City has an accumulated fund deficit in the Solid Waste Fund, a special revenue fund, at June 30, 2020, in the amount of \$4,504. The deficit occurred because the fund's resources were insufficient to cover its expenditures in fiscal year 2020. The deficit will be eliminated through an increase in property taxes in the subsequent year.

**NOTE 3 - CASH AND INVESTMENTS**

Cash and investments, as of June 30, 2020, are classified in the accompanying financial statements as follows:

	<u>Governmental activities</u>	<u>Business-type activities</u>	<u>Total primary government</u>	<u>Discretely presented component unit</u>	<u>Totals</u>
Cash	\$ 1,797,053	\$ 1,009,398	\$ 2,806,451	\$ 120,200	\$ 2,926,651
Investments	<u>1,117,777</u>	<u>695,974</u>	<u>1,813,751</u>	<u>196,426</u>	<u>2,010,177</u>
Totals	<u>\$ 2,914,830</u>	<u>\$ 1,705,372</u>	<u>\$ 4,620,202</u>	<u>\$ 316,626</u>	<u>\$ 4,936,828</u>

Cash and investments, as of June 30, 2020, consist of the following:

Cash on hand	\$ 2,000
Deposits with financial institutions	2,924,651
Investments	<u>2,010,177</u>
Total	<u>\$ 4,936,828</u>

*Deposits* - Michigan Compiled Laws, Section 129.91 (Public Act 20 of 1943, as amended) and the City's investment policy authorize the City to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations that have an office in Michigan. The City's deposits are in accordance with statutory authority.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the City will not be able to recover its deposits. The City's investment policy addresses custodial credit risk for deposits, as the City believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the City evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories. At June 30, 2020, \$1,968,819 of the City's bank balances (including the component unit) of \$2,925,862 was exposed to custodial credit risk because it was uninsured and uncollateralized. The City maintains individual and pooled cash accounts for all its funds and its component unit. Due to the use of pooled deposits, it is not practicable to allocate insured and uninsured portions of certain bank balances between the primary government and its component unit.

**NOTE 3 - CASH AND INVESTMENTS (Continued)**

*Investments* - State statutes and the City's investment policy authorize the City to invest in a) obligations of the U.S. Treasury, agencies, and instrumentalities; b) commercial paper rated within the two highest rate classifications, which mature not more than 270 days after the date of purchase; c) repurchase agreements, collateralized by U.S. governmental securities; d) bankers' acceptances; e) mutual funds composed of otherwise legal investments; and f) investment pools organized under the local government investment pool act. The City's investment policy does not address credit risk or interest rate risk for investments.

*Investments in entities that calculate net asset value per share* - The City holds shares in an investment pool where the fair value of the investment is measured on a recurring basis using net asset value per share of the investment pool as a practical expedient. At June 30, 2020, the fair value, unfunded commitments, and redemption rules of these investments are as follows:

	<u>Michigan CLASS</u>
Fair value at June 30, 2020	\$ 2,010,177
Unfunded commitments	none
Redemption frequency	n/a
Notice period	none

The Michigan CLASS investment Pool invests in U.S. Treasury obligations, federal agency obligations of the U.S. government, high-grade commercial paper (rated 'A-1' or better), collateralized bank deposits, repurchase agreements (collateralized at 102% by treasury agencies), and approved money market funds. The program is designed to meet the needs of Michigan public sector investors. The Pool purchases securities that are legally permissible under state statutes and are available for investment by Michigan counties, cities, townships, school districts, authorities, and other public agencies.

## NOTE 4 - RECEIVABLES

Receivables as of June 30, 2020, for the City's individual major funds and nonmajor funds, in the aggregate, were as follows:

<i>Funds</i>	<i>Accounts</i>	<i>Interest</i>	<i>Property taxes</i>	<i>Special assess- ments</i>	<i>Inter- govern- mental</i>	<i>Totals</i>
Governmental:

## NOTE 5 - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020, was as follows:

	<i>Beginning balance</i>	<i>Increases</i>	<i>Decreases</i>	<i>Ending balance</i>
Governmental activities:				
Capital assets not being depreciated	\$ 844,578	\$ 149,517	\$ -	\$ 994,095
Capital assets being depreciated:				
Buildings	2,211,883	21,737	(37,936)	2,195,684
Improvements	4,990,579	283,382	-	5,273,961

**NOTE 6 - LONG-TERM DEBT (Continued)**

Debt service requirements at June 30, 2020, excluding compensated absences, were as follows:

<i>Year ended June 30:</i>	<i>Primary government: Business-type activities</i>	
	<i>Principal</i>	<i>Interest</i>
2021	\$ 55,000	\$ 30,500
2022	55,000	29,125
2023	55,000	27,750
2024	60,000	26,375
2025	60,000	24,875
2026-2030	325,000	92,625
2031-2035	365,000	54,375
2036-2038	<u>244,999</u>	<u>12,375</u>
Total	<u>\$ 1,219,999</u>	<u>\$ 298,000</u>

All debt of the primary government is secured by the full faith and credit of the City.

**NOTE 7 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS**

The composition of interfund balances is as follows:

<i>Fund</i>	<i>Interfund receivables</i>	<i>Fund</i>	<i>Interfund payables</i>
DPW Equipment	<u>\$ 4,570</u>	General	\$ 1,290
		Major Street	652
		Local Street	278
		Public Safety	900
		Solid Waste	511
		Sewer	114
		Water	<u>825</u>
			<u>\$ 4,570</u>
General	<u>\$ 13,916</u>	Major Street	2,081
		Local Street	1,787
		Public Safety	847
		Solid Waste	1,925
		Sewer	5,034
		Water	2,128
		DPW Equipment	<u>114</u>
			<u>\$ 13,916</u>
Totals	<u>\$ 18,486</u>		<u>\$ 18,486</u>

**NOTE 7 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (Continued)**

The interfund balances, due to the DPW Equipment Fund, represent current amounts due for equipment charges. The interfund balances, due to the General Fund, represent a reallocation of wages.

Interfund transfers occurred during the year ended June 30, 2020, as follows:

<u>Fund</u>	<u>Transfers in</u>	<u>Fund</u>	<u>Transfers out</u>
Public Safety	\$ 919,670	General	\$ 919,670
Local Street	60,000	Street and Bridge	60,000
Capital Projects	134,215	General	125,335
		Public Safety	8,880
			<u>134,215</u>
Equipment Replacement	76,280	Capital Projects	69,670
		General	6,610
			<u>76,280</u>
General	249,728	Capital Projects	249,728
Solid Waste	8,120	General	8,120
Total	<u>\$ 1,448,013</u>		<u>\$ 1,448,013</u>

- The General Fund transfer to the Public Safety Fund represents unrestricted funds to support expenditures recorded in the Public Safety Fund.
- The Street and Bridge Fund, a nonmajor governmental fund, transferred available restricted funds to the Local Street fund to finance local street preservation costs.
- Transfers to the Capital Projects Fund, from the General and Public Safety funds, represent resources set aside for future capital acquisitions.
- Transfers to the Equipment Replacement Fund, a nonmajor governmental fund, from the Capital Projects and General funds, represent support for future capital acquisitions.
- The Capital Project Fund transferred \$249,728 to the General Fund to close the fund.
- The General Fund transferred \$8,120 to open the new Solid Waste Fund.

**NOTE 8 - PROPERTY TAX REVENUES**

The taxable valuation of the City, for the 2019 tax year, approximated \$90,695,360, on which ad valorem taxes levied consisted of 11.6283 mills for operating purposes, 1.9089 mills for solid waste/recycling, and 1.9243 mills for public safety, raising approximately \$1,054,000 for operating purposes, \$173,000 for solid waste/recycling, and \$175,000 for public safety. These amounts are recognized in the fund financial statements as property tax revenue.

**NOTE 9 - DEFINED CONTRIBUTION PENSION PLAN**

The City contributes to the City of Otsego Group Pension Plan (the Plan), a defined contribution pension plan, for all its full-time employees. The Plan is administered by a third-party administrator.

Benefit terms, including contribution requirements, for the Plan are established and may be amended by the City Commission. For each eligible employee in the Plan, the City is required to contribute 10% of covered payroll to the individual employee's account. Employees are permitted to make contributions to the pension plan, up to applicable Internal Revenue Code limits. For the year ended June 30, 2020, employee contributions totaled \$40,836, and the City recognized pension expense of \$135,617.

Employees are immediately vested in their own contributions and earnings on those contributions and become vested in City contributions and earnings on City contributions after completion of two years of credited service with the City. Nonvested City contributions are forfeited upon termination of employment. Such forfeitures are used to cover a portion of the pension plan's administrative expenses. For the year ended June 30, 2020, there were no forfeitures and the City reported \$3,608 in accrued liabilities as part of the contributions to the Plan.

**NOTE 10 - CONTINGENT LIABILITIES**

*Non-vested sick pay* - The City is contingently liable to its employees for \$254,141 in accumulated non-vested sick pay benefits.

*Lawsuit* - In the normal course of its activities, the City becomes a party in various legal actions. The City is currently involved in a lawsuit, which could have a significant financial impact. Because the outcome of this lawsuit is not presently determinable, the possible range of the potential cost cannot be reasonably predicted; therefore, no accrual has been made for this amount in the financial statements. The City intends to vigorously defend its position in this case.

**NOTE 11 - RISK MANAGEMENT**

The City is exposed to various risks of loss related to general liability, property and casualty, workers' compensation, and employee health and medical claims. The risks of loss arising from general liability, building contents, workers' compensation, employee medical, and casualty are managed through purchased commercial insurance. For all risks of loss, there have been no significant reductions in insurance coverage from coverage provided in prior years. Also, in the past three years, settlements did not exceed insurance coverage.

**NOTE 12 - CONSTRUCTION CODE ACT**

A summary of construction code enforcement transactions for the year ended June 30, 2020, is as follows. At June 30, 2020, there was a cumulative excess of revenues of \$3,172 from construction code enforcement activities.

Excess cumulative revenues, beginning of year	\$ <u>-</u>
Revenues	\$ 85,133
Expenses	<u>81,961</u>
Excess of revenues over expenses	\$ <u>3,172</u>
Excess cumulative revenues, end of year	\$ <u>3,172</u>

**NOTE 13 - RESTRICTED NET POSITION**

The government-wide statement of net position reports \$870,426 of restricted net position, which is restricted by enabling legislation. Of this amount, \$3,301 is restricted for public safety expenditures and \$867,125 is restricted for public works expenditures.

**NOTE 14 - ECONOMIC DEPENDENCY**

For the fiscal year ended June 30, 2020, the City received approximately 13 percent of its utility revenues from one industrial property owner.

**NOTE 15 - CHANGE IN ACCOUNTING PRINCIPLE**

Effective July 1, 2019, the City adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*. As a result, a statement of fiduciary net position and a statement of changes in fiduciary net position have been presented. The statement of fiduciary net position reports all assets, liabilities, and net position of fiduciary funds, as in the past. However, liabilities are now only recognized when an event occurs that compels the government to disburse fiduciary resources. The statement of changes in fiduciary net position reports the additions and deductions from fiduciary net position, which is a new requirement for custodial funds, which replace agency funds.

**NOTE 16- PENDING ACCOUNTING PRONOUNCEMENT**

Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*, was issued by the GASB in June 2017 and will be effective for periods beginning after June 15, 2021. The objective of this Statement is to increase the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use the underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

**NOTE 17 - SUBSEQUENT EVENT**

As a result of COVID-19, which occurred subsequent to the end of the fiscal year, economic uncertainties have arisen which are likely to negatively impact the City. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the financial impact on the City. Therefore, the City expects this matter to negatively impact its operations and financial condition. However, the related financial impact and duration cannot be reasonably estimated at this time.

**BALANCE SHEET - Downtown Development Authority**

June 30, 2020

**ASSETS**

Cash	\$ 120,200
Investments	196,426
Receivables	980
Prepays	<u>3,170</u>
Total assets	<u>\$ 320,776</u>

**LIABILITIES AND FUND BALANCE**

## Liabilities:

Accounts payable	\$ 2,340
Accrued payroll liabilities	<u>2,268</u>
Total liabilities	<u>4,608</u>

## Fund balance:

Nonspendable - prepaids	3,170
Unassigned	<u>312,998</u>
Total fund balance	<u>316,168</u>

Total liabilities and fund balance \$ 320,776

Total fund balance \$ 316,168

Amounts reported for the *component unit* in the statement of net position (page 14) are different because:

Capital assets are not financial resources and, therefore, are not reported in the fund.

2,173,283

Compensated absences are not due and payable in the current period and, therefore, are not reported in the fund.

(1,658)

Net position of the *component unit*

\$ 2,487,793

**BUDGETARY COMPARISON SCHEDULE - Downtown Development Authority**

Year ended June 30, 2020

	<i><u>Final budget</u></i>	<i><u>Actual</u></i>	<i><u>Variance favorable (unfavorable)</u></i>
<b>REVENUES</b>			
State grant - local community stabilization	\$ 304,000	\$ 303,754	\$ (246)
Interest	500	2,195	1,695
Other	<u>177,600</u>	<u>150,247</u>	<u>(27,353)</u>
Total revenues	<u>482,100</u>	<u>456,196</u>	<u>(25,904)</u>
<b>EXPENDITURES</b>			
Economic development	272,700	202,946	69,754
Capital outlay	<u>200,000</u>	<u>20,329</u>	<u>179,671</u>

<b>NET CHANGES IN FUND BALANCES</b>	9,400	232,921	223,521
<b>FUND BALANCES - BEGINNING</b>	<u>83,247</u>	<u>83,247</u>	<u>-</u>
<b>FUND BALANCES - ENDING</b>	<u>\$ 92,647</u>	<u>\$ 316,168</u>	<u>\$ 223,521</u>
Net change in fund balance			\$ 232,921
Amounts reported for <i>component unit</i> in the statement of activities (page 15) are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense:			
Asset acquisitions			20,329
Depreciation expense			(84,492)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the fund:			
Increase in accrued compensated absences			<u>(196)</u>
Change in net position of <i>component unit</i>			<u>\$ 168,562</u>
